TO: Minerals File

FROM: Lynn Kunzler, Reclamation Specialist 

RE: Site Inspection, Western Clay Corporation, Bentonite Pit, M/041/012, Sevier County, Utah

Date of Inspection: September 12, 1996  
Time of Inspection: 11:00 a.m.  
Conditions: Mostly cloudy  
Participants: Lynn Kunzler, DOGM

Purpose of Inspection: To document current site conditions

I took a drive around the clay pits. There was not activity observed. There was a couple of conveyors sitting here, but no loaders or cats at the site. This site seems to be stable. There is what appears to be several stockpiles of material that has been mined. I took several photos to document the site.
